

Valve (manual and control)

Type of Valve (ball, gate, globe, butterfly, e _____)

Media _____

Pressure	Min _____	Normal _____	Max _____
Temperature	Min _____	Normal _____	Max _____
Required flow or Cv	Min _____	Normal _____	Max _____

Valve _____

Manual, on/off automated, or positioning/modulating? _____

Material of construction _____

Stem and seat packing materi _____

Shut off Class _____

Connection type and size _____

Acceptable pressure drop _____

Actuator _____

Fail open, closed, double actir _____

Material of construction _____

Pneumatic air pressure:	solenoid on actuator?:	NEMA Rating:
Electric- voltage:	Speed:	NEMA Rating:

Positioner (if required) _____

i/p, p/p, digital, self operating, other _____

NEMA _____	Accuracy _____	Voltage to positioner _____
------------	----------------	-----------------------------

Other _____

Limit switches, etc. _____
